PowerTune four-in-one speaker.

Multitasking gadget gets more from iPod

The Macally PowerTune four-in-one speaker provides Apple iPod owners with several handy tools. Designed to work with the classic video or fifth-generation video iPod, the device's built-in speakers can deliver external up-close sound from a nearby desk or nightstand. You also can use the gadget as a protective case for your iPod and with a simple swivel, turn it into an iPod stand. Plus, it comes with a rechargeable lithium-ion battery that doubles the iPod's playing time. The device costs \$35.
